

YOUR AUTO CRIME PREVENTION KIT

Follow these simple steps & you can reduce the chance your car will be broken into:

1. Park in well-lit areas, near pedestrian traffic.
2. Remove everything from your car including sunglasses, loose change, smartphones, and credit cards and identification. Thieves will steal anything.
3. Place this crime prevention brochure (inside spread) flat on the car seat closest to the sidewalk, facing the window.

Community Prevention

Most vehicle crime is opportunistic, therefore preventable. Let's work together to reduce auto crime in our community.

Anti-Theft Devices

Electronic Engine Immobilizer

Provide the best protection. An engine with an immobilizer won't start until it recognizes a computer chip in the ignition key.

Vehicle Alarms

Draw attention to would-be thieves with sirens, beeps and other loud noises. Some systems trigger flashing lights too.

Mechanical Immobilizer

Includes after-market steering wheel locking bars and transmission locks.

Other ways to protect your vehicle

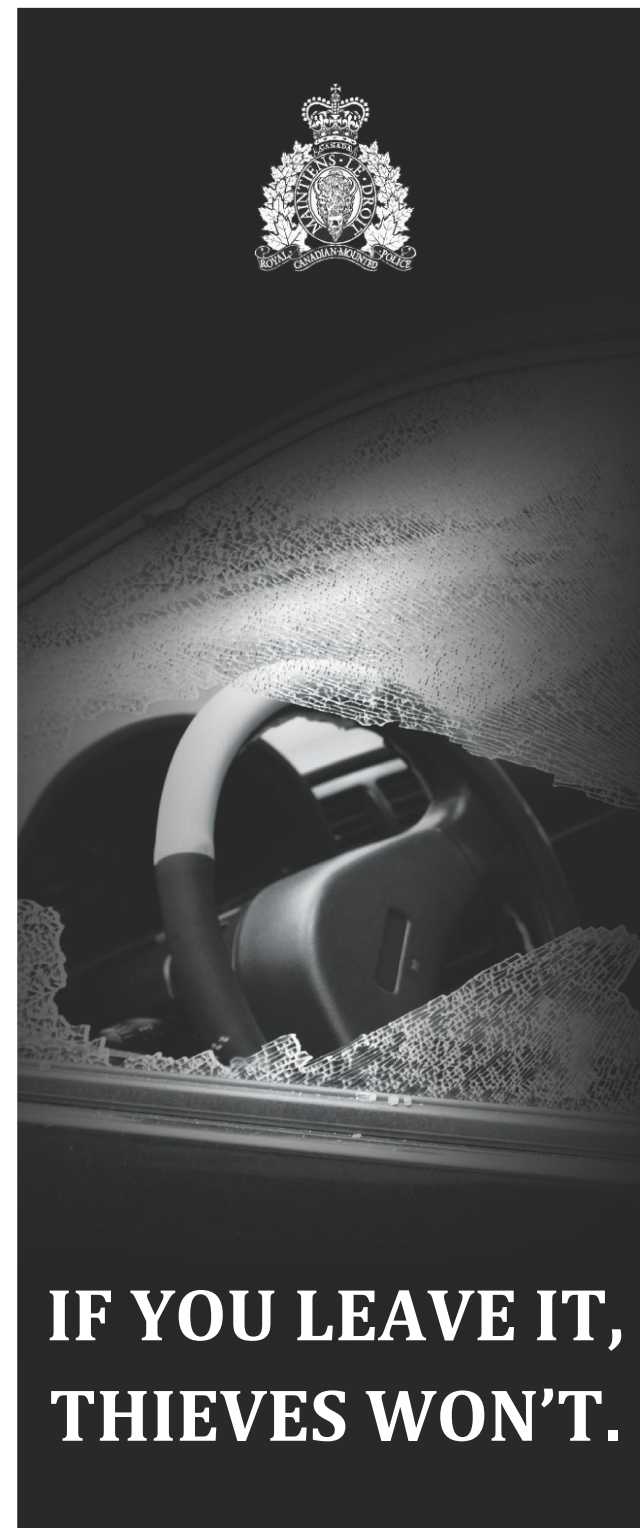

- Don't keep spare keys to your vehicle in the vehicle. Remove valet keys.
- Wait for the garage door gate to close behind you. Thieves could take this opportunity to slip inside the parkade.

In partnership with the Insurance Corporation of British Columbia, the City of Coquitlam and the City of Port Coquitlam.

For more information on auto crime and crime prevention visit coquitlam.rcmp.ca and follow @cqrmp on Twitter.

To report non-emergency incidents call 604-945-1550. In an emergency, call 911.

IF YOU LEAVE IT, THIEVES WON'T.

**NOTHING TO STEAL
BUT THIS SIGN.**

**PLEASE DON'T
STEAL THE SIGN.**
