Re: LOW Fire Danger rating

Low Fire Danger Rating, Effective September 3rd, 2026

Based on the Fire Hazard Synopsys and the long term forecast from Metro Vancouver Fire Weather Information the fire danger rating has moved to LOW.

Effective immediately, all previous conditions related to the Fire Danger Rating are hereby rescinded. This includes the Campfire ban. Campfires are now allowed within the Village of Anmore provided that the owner has a valid permit and that the fire is no bigger than .5m X .5m. A reminder that campfire fire smoke needs to vent vertically and one should only be burning clean, dry fire wood. **The burning of yard debris and construction debris is never allowed.** All campfires are permanently banned in The Village of Belcarra

Jay Sharpe, Fire Chief
