Q1 **Extremely important**

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

Money and Strong Leadership. I really never viewed Anmore as not being self-sufficient but I do understand the sewer and water factors in our community.

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Properly executed, which it will be, we have the ability to "steer" towards whatever Vision we wish. It can be used to reinforce our Strategic Plan for all areas.

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

Establish a designation that allows for maximum flexibility long term.
Continue to manage the financial plan in terms of revenues. The CAC amounts could be "staggering" in terms of value to the existing community... depending on density, assessed values, etc.

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

I can't see any downside to proceeding as proposed with Urban. The mail piece was awesome and clearly defines the flexibility it offers, relative to Rural.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

The Village, Council and Staff have, obviously, done a ton of research and preparation time for Workshops, etc. I can't think of anything not already being considered. The Committees and Council, Staff have an incredible depth of knowledge.

Great job, great input... this process should be VERY comfortable for our residents. We're communicating well and that's key. Thanks!

Q2
What do you believe is needed to help Anmore become “more self-sufficient in future”?

Not to be held hostage by Port Moody for services such as water, transport and services. Some commercial services . Alternative housing to provide for young families, seniors to maintain schools and volunteer fire.

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

I like to compare Anmore South to evidence based growth in other areas. Where other smaller communities have developed a hub, the communities are more engaged. Controlled growth will allow for planned growth (green spaces, trails, park).

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

I appreciate the transparency however some of the main reasons for opting for the urban designation such as sewer are perhaps minimized by focus on the perceived end goal

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

That the area contributes positively to the current community and is fiscally sustainable. It should provide a community hub.

Q6

Somewhat important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Extremely important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

Urban does not necessarily mean high density but higher density. We don't want to blend with Port Moody but rather have our own identity. A well planned community. Sewer services are essential for growth and for environmental concerns.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

How much lift is required vrs density proposed. Hoping for a well planned area that adds rather than detracts.

Page 4: General

Q10

Please share any additional comments.

I appreciate the transparency and community engagement. It helps to separate opinions from fact.
