Q1 **Extremely important**

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

Revenue and solid planning (which we have), diversification of housing options, inclusion of reasonable commercial land use... coffee shops, convenience stores, small grocery, drug, etc. Density drives the tax base and commercial is also important in most communities.

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

We can "steer" it so we can make it support almost any reasonable vision we might have.

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

Flexibility. The only option I see, step 1, is the solidification of the Urban designation. What follows is entirely in our "power" to control... "inclusive" housing options... age in place, attract young families if financially feasible.
Consistency, uniformity in applying land usage, size, based on OCP intended use and eventual zoning should we look at multi-family, etc. That's long term and "Urban" allows us to accomplish that diversity.

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

Financial viability for The Village in terms of CAC amounts, other donated amenities (park, etc.), housing flexibility as above, "sustainability", it would be tough to find a responsible developer with land costs as they are, who wouldn't want to maximize land usage to drive ROI.

Under each process, maintain flexibility. Our current priorities will change over time.

Q6

Extremely important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Extremely important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

The presentation, especially, and the prior information provided, very straightforward. I recognize agreement and support is important to moving forward but this one seems so "common sense" and it's difficult to see how anybody would object to moving forward with Urban. Downside?

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

As above... financial sustainability, financial contribution level to the village, CAC contributions, diversity of housing and small retail operations within Anmore by-laws, existing or future.
