Q1 **Extremely important**

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

Get rid of the expensive Hub idea. Consider to create 1/4 acre single family homes

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Anmore needs to stay as rural and be very careful to follow what residents want

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

Number one is what residents want so consider a referendum

Page 3: Designations - Awareness and Understanding

Q5
What do you think are the most important considerations when establishing a designation for Anmore South?

What the residents of anmore want to do. Not what this council wants. A rural designation is unique and should be seen as such

Q6

Somewhat important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Not at all important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

I will be attending all meetings to share my input

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

A referendum is necessary

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

Anmore needs to consider amendments to the development permit applications to gain more income from the new developments to spent on the infrustrucure life cycle replacements. Changing the designation to urban is certainly not supported by the community.

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Anmore South needs to be the same as Anmore North, Crystal Creek, Fern Drive etc. We don't want densification and change from rural status.

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

Keep the Anmore South aligned with Anmore North as in single family housing developments.

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

Keep the Rural designation.

Q6

Not very important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Not at all important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

My family and I together with all our neighbors and community completely object to this proposal. A referendum must be required to let the community decide not the council. Let's not forget that the community designated the council by vote and at the time of voting this change in designation was not on the table. We will fight tooth and nail to keep the designation as rural. That's the reason that we moved to Anmore and chose this amazing community. We don't want Urban densification. We will take this to social media and let the world know about this decision against the community's desire should the council unjustly approve this amendment.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

Consider this the end of their term at council and a huge community disconnect.

Page 4: General

Q10

Please share any additional comments.

Anmore is Rural and must stay rural. Urbanism and densification require road expansion, fire exit/access roads, fire fighting water, sewer system, all of which were and will be ruled out by Port Moody. Changing the Anmore designation to Urban is a disaster waiting to happen. I urge the council to imagine their beloved ones living in future Urban Anmore with a massive Fire/Emergency event with people being trapped in it due to not sufficient roads. Will you ever forgive yourself for this immature decision that you made during your term at the council against the communities wishes and concerns. I don't think so.

Q8

Do you have any questions/comments about this proposed designation?

Many, many questions. Having read the literature, attended the Zoom call and spoken with fellow citizens, I still see nothing that indicates that an Urban designation is necessary at this time. I see no benefits that I am interested in, but see a lot of disadvantages.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

I do not want the Village to proceed with proposing an Urban designation.

This issue was not part of the current Mayor's campaign, therefore he cannot say that it is his mandate. Council has stated that it will not use a referendum despite this being a major decision that will change the whole future of Anmore. What will it take to convince council that it is not in our best interest at this time?

Scaling back on large expensive items and living within are means.

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Keeping the Anmore concept one half to one acre lots with some small subdivisions.

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

Nothing. It is already sufficient. Increased density is not required in Anmore South

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

A continuation of a rural designation for Anmore South

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

Continued rural designation for Anmore South development to limit excess traffic congestion.

Nothing. It is self sufficient now

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Nothing more than currently exists in the village Acre, half acre, in- fill, tree retention, some CD , parkland.

Q4

No changes to the loco land without a referendum.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

I think they need to consider that this issue has attracted a lot of interest, and opposition to this change. Residents may appeal directly to the Metro Board to oppose.

I could not answer the first question because none of the shown responses were correct. The change in voting percentages may be a protection from unwanted change.

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

Not knowing the details of the financials, I feel like I cant really make an informed decision. I thought the Council was doing OK fiscally..I like Anmore the way it is and dont want to see large out of control development

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

If there has to be something keep it small, we all know added infastructure , sewers, roads cost money. Lets not throw the baby out with the bathwater. Ravenswood is a very good example, of a well planned development reason being, lots of trees that weren't all mowed down when developer came in.

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

I would like the village to consider possible non development and be a leader in how to stay green and putting respect for wildlife and the environment first. Slow development in a small well thought out manner. Not to be rushed.

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

I dont want Anmore to go 'Urban' Im sure the village can work around the rural designation as they always have in the past. Dont care to have shops and restaurants. Anmore is special the way it is.

Q6

Not very important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Somewhat important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

Dont like the idea quite frankly, and there are no roads to handle the excess traffic. Many people have come to realize what makes a place special is its green spaces, parks and lots of trails and recreational areas. Glad a road didnt go through Bert Flin

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

Keep it small , I fear once the developers get in things will spiral out of control.

Page 4: General

I love Anmore the way it is. Thank you
