Page 1: Defining Our Future, Our Way

Q1 **Extremely important**

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

Financial stability

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Any proposal brought forward should mirror 1 acre or 1/2 acre properties to keep consistent with the rest of Anmore. No apartments, condos, story buildings. Some small commercial businesses. Anmore is too small to support any large store chains, or retail shops.

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

as above

Page 3: Designations - Awareness and Understanding

Q5 **Respondent skipped this question**

What do you think are the most important considerations when establishing a designation for Anmore South?

Q6 Respondent skipped this question

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7 Respondent skipped this question

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8 Respondent skipped this question

Do you have any questions/comments about this proposed designation?

Q9 Respondent skipped this question

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

Q1 **Not very important**

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

Develop Anmore south in such a way to balance Anmore residents needs like aging in our community with a fiscally responsible development that meets the needs of the villages financial obligations

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

I trust our elected officials to do their do dilligence to come up with with the best plan to realize the fullest potential of the development while not spoiling the unique character of Anmore. Balance is key.

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

I think you are asking what type of development should be built and linking it to the regional strategic plan? Priorities would be to keep Anmore's values in mind, such as minimal environmental impact, such as minimal lighting, no liquor establishments such as brew pubs liquor stores or places where large gatherings take place, I like the idea of blended housing, low rise apartments, and nicely built row housing and a few small shops, strategic priorities may also include a number of rental units as well

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

Preserve Anmores unique character of open space, mountains, forest and peaceful surroundings

Q6

Extremely important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Extremely important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

no

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

Make sure the process is transparent and stick to the truth where ever it leads

Page 4: General

Q10

Please share any additional comments.

Thanks for allowing me to provide input, really appreciate your work

Thank you

Page 1: Defining Our Future, Our Way

Q1

Extremely important

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2

What do you believe is needed to help Anmore become "more self-sufficient in future"?

In the context of what we have now (and realistically what Anmore can be in the future), not much more than what is already being done.

Q3

What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Great place to continue the 'look and feel' of Anmore.

Q4

Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

The biggest priority for me is ensuring we don't all of a sudden pave the way for high density development that would be very different from the rest of Anmore. Traffic management should also be another key priority.

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

Although changing the designation now will not change zoning, going to Urban will open the door for later decisions that allow for higher density. If Anmore residents want to keep Anmore South as current 1acre zoning density, to me it just does not make sense to go to Urban. It doesn't matter that going to Urban provides 'more flexibility', because that is essentially more flexibility in higher density.

Q6

Not very important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Not very important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

I've seen a lot of literature/info from the Village showing the benefit of going to Urban and the drawback from staying Rural. However very little information has been provided showing the opposite. To have a balanced approach, pros/cons for going Urban and pros/cons staying Rural should be provided, not just one side. Therefore the information provided felt biased towards going in one particular direction.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

Nowhere in this survey are residents actually asked: do you want to Anmore South to switch to an Urban designation or stay with a Rural designation? A question like #9 doesn't actually get at the root of the issue, it asks residents to state what should be considered in the decision, not the actual direction Council should take. So how can then Council accurately gauge whether the larger community want to stay Rural vs. going to Urban. For the record, my 'vote' is to stay with the Rural designation.

Page 4: General

Q10

Please share any additional comments.

As stated in Question 9, my 'vote' is to stay with the Rural designation. We can get rid of the special study attachment to that, but stay Rural. Thank you.

The following feedback form responses included input from workshop participants as well as general community submissions as this feedback form was shared on Facebook.

Page 1: Defining Our Future, Our Way

Q1 **Somewhat important**

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

Park fees, increased the volunteer team, allow current residents to increase (build) their density (infilled etc) rather than developers in lands like Anmore South, rent Anmore Hall for weddings and events and celebrations (like Burnaby does with garden clubs, Rhodo club, Rose club etc), work at increased village efficiency and running lean

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

None, the burden of this strategic Plan Vision should be shared by all residents of Anmore not just a portion of the residents being potentially affected by the changes in Anmore South Lands

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

1) stay as is (rural lots 1 acres of more) with requirement that the developer donates 30% (Land North of Sunny side) to the Village so that the area can be made into a park with paths connecting thru upper Crystal Creek towards the Village hall

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

Keeping the rural and serene character of the rest of Anmore

Q6

Somewhat important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Not at all important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

This would destroy the character of Anmore and set the stage for other projects elsewhere in Anmore to change the character of Anmore. Village Councillors and Mayor need to publicly declare and disclose (on paper) that they have no past, present or future interests (them and immediate families) in any recent or future development projects and that the current proposed changes are in no way directed by conflict of interests.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

Possible legal costs to the Village if residents being negatively affected by this proceed with legal options (e.g. Anmore Green Estate legal history)

Page 4: General

Q10

Please share any additional comments.

thanks for listening, we hope you will make the wise decision that benefits the most residents and keeps the character of Anmore for future generations.

Q1 **Extremely important**

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

No longer relying on Port Moody for our water.

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

I do not believe that "affordable" housing will ever happen for Anmore. It would be nice if future housing did include smaller homes if Anmore decides to change to Rural designation for Anmore South not just smaller lots. I would like to see another park for Anmore that is larger than Spirit park. Much of the green space given back to Anmore from Developments are small and not usable for anything significant.

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

A larger park setting than Spirit park with lots of trees as Spirit park currently needs more trees.

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

I would like for Anmore to remain as status quo. I like the vibe of Anmore and how low key we are. If we develop under urban standards we will be just like Port Moody.

Q6

Somewhat important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Somewhat important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

Land cost are high in Anmore so I do not see how either designation would provide entry level housing.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

I believe that the village has already proposed this as their only option. The fact that this is coming after the application for Burrard Commons, now Anmore south has been withdrawn is an indication that it needs to be done for that development to proceed. Will they be resubmitting if it is changed to Urban? It appears as though these are linked and it needs to be done for their benefit.

Page 4: General

Q10

Please share any additional comments.

We thank you for this opportunity to provide input regarding Anmore South

Page 1: Defining Our Future, Our Way

Q1 **Somewhat important**

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

I think we should be looking at increasing other fees on current revenue streams. Look at incorporating paying tenants into the hub to make that a commercial centre. It could have a coffee shop, daycare, small community library etc. You could rent it out for parties or events.

We could look at doing fundraisers or volunteer drives for various things. Anmore advantage is that it is small, dynamic and a tight knit community, we need to harness this resource. I also noticed that rural designations allow for light industrial and some commercial - could we look at incentivizing some development for that? Which would diversify the tax base. I also think we should look at doing a census of what is and who is in Anmore, I think we would be surprised at the number of people operating businesses from their homes and working/living in Anmore.

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

I would be keen on linking trails through the village, is this an opportunity to do that? Then you don't have to walk on sunny side and east road which are so busy.

Anmore is a desirable community and it's a place where we can offer some different types of housing like perhaps duplex's or requiring developments to have plans for or thr ability to incorporate carriage houses. There is always a need for rentals. It is also a way for younger families to move in as they get mortgage helpers. So perhaps amending bylaws to allow for more coach houses or ensuring developments are done with this option protected.

Q4

Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

If anything more commercial is going to be done we need more childcare places. The majority of residents are going to have to leave the village for work - or if they're working from home they will need daycare close by. What about having a commercial or light industrial development in one section of the development and have residential development in the other areas that is similar to the existing character and feel of Anmore? We could look at what type of space is lacking in other community's and target that type of development.

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

Why not look at what can be done by incorporating some of the uses that you can do under a rural designation. Metro Van website says you can do, " Allowable uses include lower density residential uses and small scale commercial, industrial, institutional, and agricultural uses." What can we make this area look like to incentivize different rural uses in combination with residential development. Have we looked at other rural communities who have accomplished financial sustainability while keeping rural land use designations? Have we explored what exactly "small scale industrial, commercial and institutional" means? Could we fill a gap there?

Q6

Not very important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Not at all important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

I don't think we have done adequate research into seeing what could be accomplished within the rural designation bounds. Further - precedent had been set in Anmore of OCD variants where developments are smaller - like Birchwind, Ravenswood, Crystal Creek. Urban would invite higher density, how are we going to deal with traffic if David/Bert Flynn is no longer an option?

Lastly, the major difference is access to sewer. Is this area if it has sewer going to be taxed at a different rate than the rest of the community that is on septic? I don't want to pay for a service that I am not using when I have already paid for my own septic system.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

I would like to see a village wide survey of what people think/want in that area. I would like to see a study of what opportunities could be incentivized under the rural designation - can we look abroad to other successful rural, financially stable community models? If the village is adamant we need to go to urban, know that we will have less rural land designated than Coquitlam! And we need to think about how we are going to get people in and out of the village to deal with the traffic. If bert Flynn park is out - what is another route for a road in to support the increased density. People who will be able to afford to live in Anmore South will likely not be keen on taking transit. How often has anyone on council used transit? When I have used transit - I drive to the park and ride and get on the sky train - that is what is realistic - that is what is likely going to happen. Because people have to drop their kids at school, daycare etc.

Page 4: General

Q10

Please share any additional comments.

We need to do a community wide survey monkey on this issue. We have the time to do it now, people are home. Let's do it! I know of 4 other families with young children who could not participate in the open house because of the time/registration deadline. A survey would afford people to provide feedback/input at their leisure.

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

need more info on why we won't be self sufficient when we seem to be financially in very good shape

Q3 **Respondent skipped this question**

What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

keep it a rural looking setting. no high-rises. no high density.

Page 3: Designations - Awareness and Understanding

Q5
What do you think are the most important considerations when establishing a designation for Anmore South?

not changing the designation until we know what the plans are, or if the plans will include a village wide vote. am okay with the change of designation to urban if further plans always included a vote.

Q6 **Not very important**

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7 **Not very important**

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8
Do you have any questions/comments about this proposed designation?

no they were answered in the workshop

Q9
What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

consider listening to the Village residents, having votes, not just the usual "public hearing" then do whatever they decide. think about the traffic issues that are already an issue in the summer and will get worse with the new Hub.

Page 4: General

Q10
Please share any additional comments.

Keep it looking like Anmore. it has to look like we live in nature, without the streetlights, and with the windy sidewalks and different houses etc. right now we have large houses, smaller ones, horses, the cozy residences of Blackberry Drive, the little grocery store (which is a bit of a throwback and people love). We live here to get away from larger stores, drugstores, liquor stores etc. they are a drive down the hill but that's the point. we want them to be there and not in our backyard. thanks for the opportunity for input. I hope council listens and does not just follow through on their own agenda - it often feels as if our council is very pro-development. some density is welcome for sure, but lets get it right and be aware of the traffic problems. I am not convinced a bunch of development will lower our taxes in the long run and don't see that as a valid argument for development. Urban designation could open up a whole can of worms we have no control over unless the Village has a say, in votes. I found the Anmore South brochure sent out to be informative, but extremely biased to wanting the change in status to urban which immediately (though possibly wrongly) makes one way.

Page 1: Defining Our Future, Our Way

Q1 **Extremely important**

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become “more self-sufficient in future”?

I think we need to create more community and not just more houses. I think any plan for additional homes need to go hand-in-hand with amenities so we are not just a suburban jungle.

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

As above. You need to create a community and not just a bunch more houses

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

To recognize that this is not an offshoot of Port Moody. If we had wanted to live in suburbia with houses on top of each other we would have move elsewhere. This is not what Anmore is about.

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

Not to have houses on top of each other. Not to have street lighting. Not to become Coquitlam version 2.0

Q6

Not at all important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Not at all important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

I do not agree with this idea. There are plenty of opportunities in other areas if people are looking for "entry-level" properties and a more urban environment. It is unfair on the residents who chose to live here because that is not what Anmore is about. You can't cater for all people in all places and nor should you try. Anmore is not "suburbia" and we don't want it to be.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

A VOTE SHOULD BE HELD FOR ALL CURRENT RESIDENTS BEFORE A DECISION IS MADE TO MOVE FORWARD. THIS WILL AFFECT US ALL AND EVERYONE SHOULD HAVE THEIR SAY.

Page 4: General

Q10

Please share any additional comments.

Obviously I do not agree with proceeding to make Anmore "urban". However, provided a vote is held for all current residents then I would respect whatever decision is made. Unilaterally moving forward without a vote seems fundamentally unfair to the current residents of Anmore.

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

A local pub and coffee shop

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Maintain 30% tree coverage and limit new lots to 1 acre minimum per home

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

Don't make any changes

Page 3: Designations - Awareness and Understanding

Q5
What do you think are the most important considerations when establishing a designation for Anmore South?

Maximize green space. Do not cut off the wildlife frequenting Burt Flynn Park from all directions.

Q6

Not at all important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Not at all important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

I do not support this initiative

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

Consider reconsidering their decision

Page 4: General

Q10

Please share any additional comments.

There are acres and acres of property in Port Coquitlam, Pitt Meadows and Maple Ridge where "urban" development can happily continue

Q1 **Extremely important**

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become “more self-sufficient in future”?

Reduce the bureaucratic overburden.
No sewers, street lights or other unnecessary infrastructure.

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Keep the developments small and surrounded by natural green space. Keep it rural and the population small.

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

Limited development. Possibly increased density of population in small pockets, with the majority of the land remaining undeveloped and rural.

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

Control and limit development spread and population growth.

Q6

Not very important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Somewhat important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

It is frightening as it could allow a huge change to Anmore's way of life.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

Decision makers need to consider the desires of the residents more important than the monetary gains of potential developers

Page 4: General

Q10

Please share any additional comments.

The process seems to be flawed because all of the material is biased towards one choice.

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

Higher density housing projects and commercial zones.

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

It's could be a way to increase density of population whilst also offering a much needed variety of housing options and tax revenues. Also allows Anmore to keep much of its rural feel. And keep large areas of natural forest.

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

Variety of housing options. Higher density housing. Commercial zoning for restaurants, shops, updated marina etc

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

Maximizing variety of housing options whilst keeping as much of the rural feel as possible.

Q6

Extremely important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Extremely important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

Yes

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

Housing options, tax revenues, conservation of habitat.

Q1 **Somewhat important**

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

What do you mean by "more self sufficient"? We are currently self sufficient are we not?

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

I would like to see large lots, abd the retention of as much forest as possible. I'm not interested in a diversified tax base from business. I'd like Anmore to retain its rural charm

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

I do not want the village to change the designation to urban. I think this would require a lot of trust in current and future councils and I see this council as pro development and pro business and have not always felt that council is representing Villagers

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

To protect as much forested areas as possible and limit development overall... keep the incoming population small

Q6

Not very important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Extremely important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

Council should not already be proposing this without consulting the Village. Big issues like this should go to a referendum

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

The retention of forest and not to assume that this means commercial space and business tax bases

Page 4: General

Q10

Please share any additional comments.

Put it to a referendum. This is a big thing

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

This development to go ahead

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

It will support people that have lived in anmore there entire childhood find affordable housing in anmore.

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

Affordable housing

Page 3: Designations - Awareness and Understanding

Q5 **Respondent skipped this question**

Q1 **Not very important**

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?

Page 2: Priorities for a Complete Community

Q2

What do you believe is needed to help Anmore become “more self-sufficient in future”?

The mayor and council have stated that the village is in great shape fiscally so if we keep our existing services and zoning property taxes should support the budget. Nothing further required

Q3

What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Keep development in line with the majority of residents' wish for a semi rural atmosphere.

Q4

Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

These questions are somewhat “loaded” and leading in order to support council's wishes.

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

Prevent increased density and the associated costs, traffic and overload of our parks and trails.

Q6

Not at all important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Not very important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

I don't support it. If council feels strongly that it is necessary and that it is supported by the majority of residents it should be put to a referendum as it is too important a decision to be made by a small group of five people. The cost of a referendum is minimal compared to the amounts we have spent on rebranding the village and the Village Hub.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

Please see comments in #8. Give concrete financial data to support the need for a diversified tax base - are there future expenditures and development that require additional revenue

Page 4: General

Q10

Please share any additional comments.

I would like clarification of who currently owns the Anmore South lands. Is it still BSG? Have they hired a new developer or did the developer who proposed the original plan just withdraw it until Anmore changes designation of the lands to suit their purpose? (The developer's purpose).

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

Better management of spending. Encourage home based/community based businesses & services.
Promote & encourage volunteerism

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Anmore south has not been thought through re traffic & services required...the concept is good but the density to ensure profit spoils it

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

Use of the water front & some commercial to encourage a lifestyle that is relaxed & nature based, town houses & older resident housing.

Page 3: Designations - Awareness and Understanding

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

Maintain rural as the main priority. Incl housing for young families & elderly

Q6

Somewhat important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Extremely important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

4200 new residents is not feasible, what about schools, buses, grocery shopping.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

Traffic, traffic, traffic

Page 2: Priorities for a Complete Community

Q2
What do you believe is needed to help Anmore become "more self-sufficient in future"?

Higher taxes and less spending. We are not a city, we are a small rural municipality.

Q3
What potential do you see for the Anmore South lands in terms of supporting Anmore's Strategic Plan Vision?

Over developing the Anmore South area is not the solution to Anmore's financial problems or needs. This area should also be rural like the rest of Anmore. If you want to be like Port Moody and density, then maybe amalgamate with Port Moody. Otherwise keep Anmore rural.

Q4
Recognizing that Anmore South has been zoned for development for decades, and looking at the Strategic Plan goals and priorities and how they link to potential opportunities for Anmore South, what are some of the priorities you would like the Village to consider as part of this amendment process?

Keeping the Anmore South area as rural and forested as possible given the sensitive habitat.

Q5

What do you think are the most important considerations when establishing a designation for Anmore South?

Keeping Anmore rural.

Q6

Not very important

How important is it for Anmore to pursue alternative tax sources to diversify the tax base away from reliance on residential property taxes?

Q7

Not at all important

How important is it for Anmore to provide an opportunity for more housing options to allow both entry-level properties for young families and alternate housing for aging at home?

Q8

Do you have any questions/comments about this proposed designation?

Anmore needs to stay rural, if you want Anmore to have urban designation, we would be better off joining Port Moody. Keep us rural any move to urban will be the end of our Village.

Q9

What do you want the Village to consider if the decision is made to proceed with proposing an Urban designation?

A referendum.

Q1 Respondent skipped this question

How important is it for Anmore as a community to make its own decisions about the future of the Anmore South lands, without being influenced by the developer or increased requirements for a majority vote (2/3 instead of 50% +1) by other municipal politicians who sit on the Metro Vancouver Board?
