OCP Amendment Application

First Reading | Delegation Presentation

December 5th 2023

anmore south | Securing the community's future

Why does the application matter now?

Metro Vancouver's 2050 Regional Growth Strategy articulates a "collective vision for how growth will be managed to support the creation of complete, connected and resilient communities."

As one of the 21 municipalities within Metro Vancouver, Anmore has a role to play in a sustainable future for the region.

- **Singular Opportunity** | The 151 acre Anmore South lands are the only area in Anmore with a Special Study Area designation - allowing for neighbourhood growth.
- **OCP Submission** | The Anmore South OCP Amendment Application submitted to the Village on May 5th - following a public engagement process and Open House.
- **Community Benefits** | The purpose of the OCP Amendment is to unlock neighbourhood development in Anmore South - addressing housing needs + realizing community benefits for the Village.

What does the Special Study Area offer?

The Special Study Area is an opportunity identified by Metro Vancouver + the Village's OCP to:

1. **Accommodate change** in a way that meets regional growth objectives - ensuring we all do our part; and
2. **Protect Anmore's existing semi-rural character** - by focusing future growth within the Special Study Area.

Placemark | Local Planning Expertise

- **Experience** | Placemark is a multi-disciplinary design + development studio with over 30-years of experience in both the private and public sectors.
- **Community Master Planning** | History of master-planned communities across BC, prepared through public planning processes, with public consultation + engagement.
- **Bespoke** | Each project is unique + tailored to a specific community context.

Consulting team | Leveraging Professional Experience

icona Icona Properties have assembled a team of seasoned professionals bringing the required technical expertise for such a complex undertaking as Anmore South.

- Placemark | Design + Development**
- Lead Consultant + Project Management
 - Community Planning and Design
 - Community + Village Engagement

- Bunt & Associates | Traffic + Transportation**
- Preliminary Traffic Demand Management Study
 - Transportation Planning Advisor

- SLA | Landscape Architects**
- Nature-based Landscape Architecture
 - City-Nature Design Advisor

- Aquaterra | Environmental Consultants**
- Terrestrial Ecosystem + Habitat Mapping
 - Preliminary Riparian Area Protection Regulation Watercourse Setbacks Guidance
 - Preliminary Habitat Compensation Guidance

- Inlailawatash | Archaeological Consultants**
- Desktop Archaeological Overview Assessment (AOA).
 - Archaeological Impact Mitigation Advisor

- RC Strategies | Community Amenity Consultant**
- Proposed Leisure Amenities Report
 - Community Amenity Advisor

- GeoPacific | Geotechnical Engineer**
- Preliminary Geotechnical Report
 - Geotechnical Hazard Mitigation Advisor

- Aplin & Martin | Civil Engineering**
- Preliminary Infrastructure Servicing Concepts
 - Civil Engineering Advisor

- Vann Struth | Economics + Finance**
- Economic + Fiscal Impact Analysis
 - Development Economic Advisor

anmore today | Rising to the Challenges of a Changing Region

- **Strengths** | Small town character, surrounded by nature, semi-rural lifestyle, local schools, new Village Hub.
- **Challenges** | High cost of housing + lack of housing choice, limited local shops + services, car oriented, limited tax base.
- **Housing Crisis** | Provincial call-to-action for communities to provide more housing for different lifestyles, life-stages + incomes.
- **Strategic Planning** | Neighbourhood Planning + amendment to OCP is required to address emerging challenges while also preserving Village character.

Special study area | What's on the Books

- **Metro 2050 | Regionally Recognized**

Metro 2050 designates Anmore South as Special Study Area to accommodate future growth as part of the Urban Containment Boundary - enabling connection to the regional water + sanitary systems.

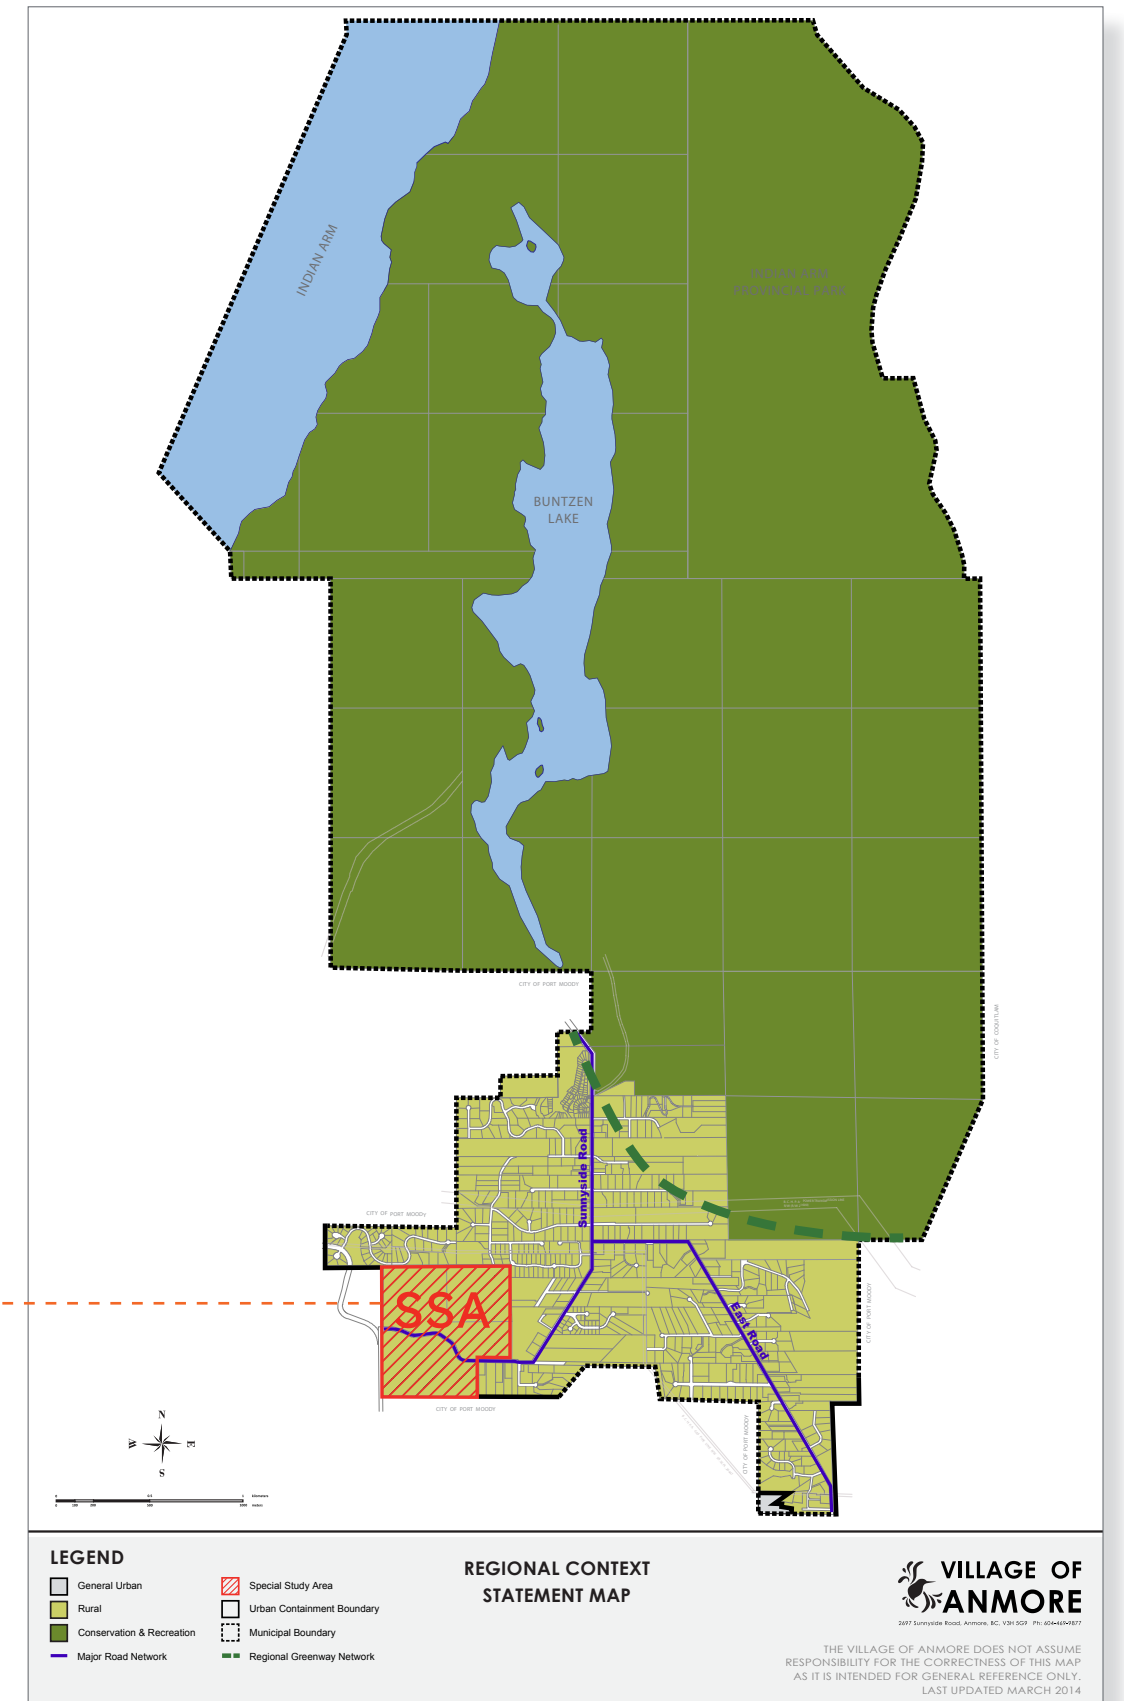

- **Village OCP 2014 | Municipally Mandated**

The Village's 2014 OCP acknowledges Metro 2050 designation of Anmore South as Special Study Area. Outlines that any future development of these lands requires a comprehensive neighbourhood plan process with detailed technical analysis and extensive community engagement.

- **Current Zoning RS-1 | More Sprawl**

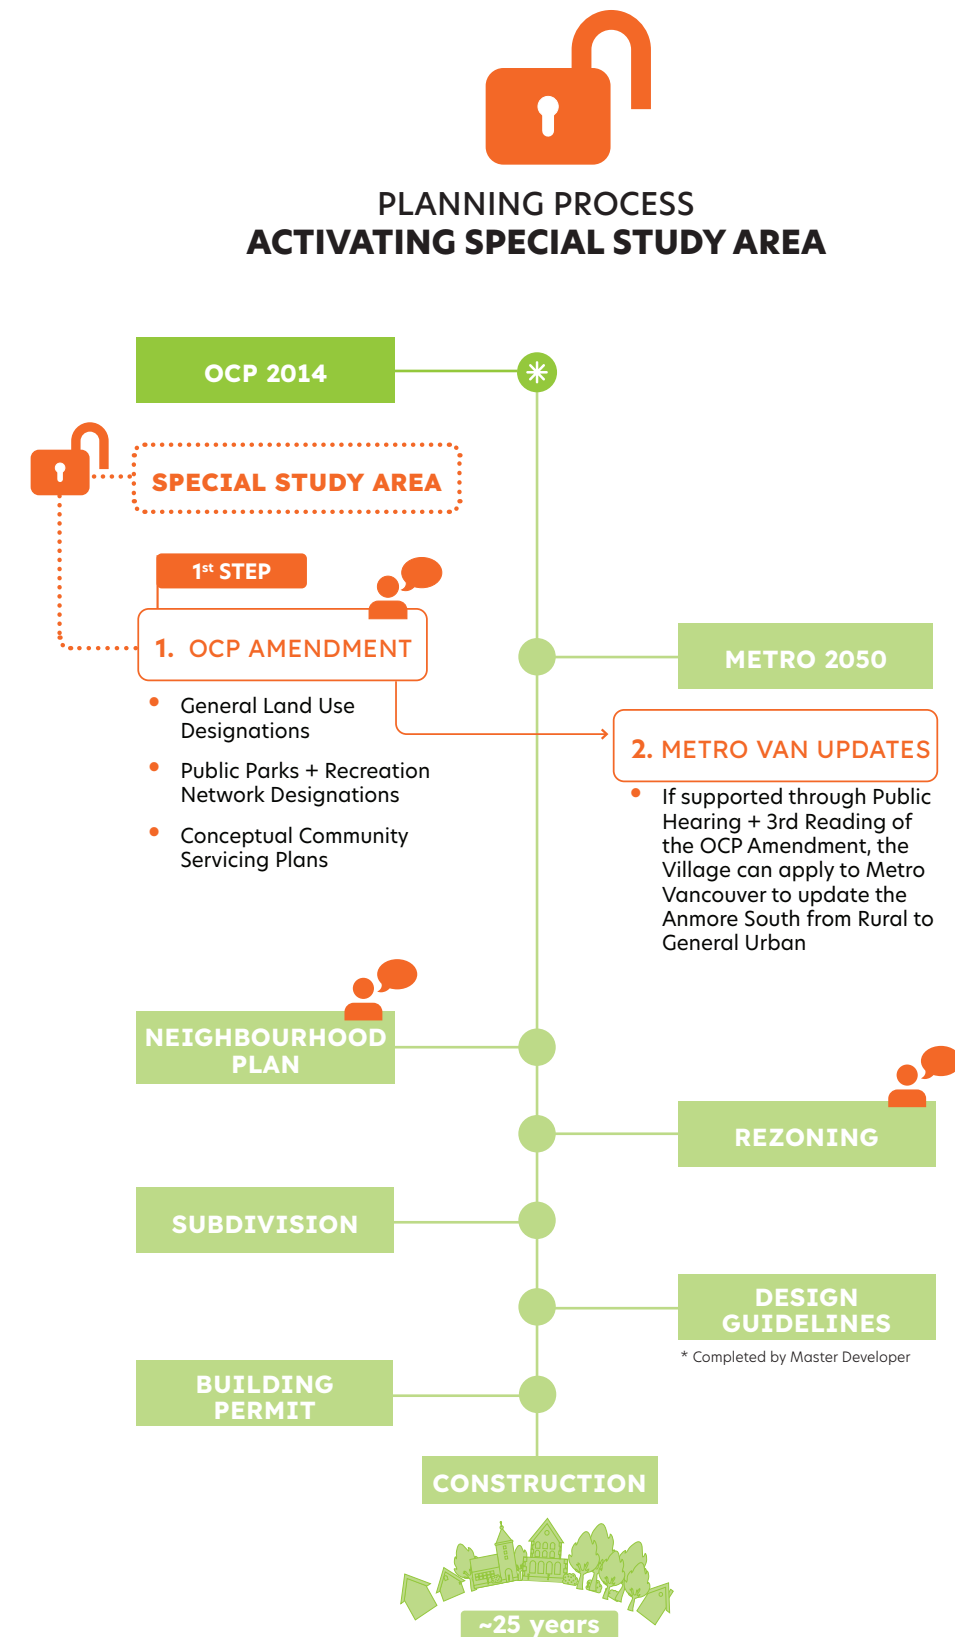

Current RS-1 zoning allows 86 Large Rural Homes, resulting in more sprawl + environmental impacts with no community benefit.

Unless the community unlocks the Special Study Area through an OCP Amendment Application, the lands will be developed according to current zoning.

A way forward | A Made-in-Anmore Future

- **RS-1 Zoning** | Anmore South's lands are approved for large single family lots, in accordance with the current RS-1 zoning.
- **Special Study Area** | Offers an opportunity for different types of neighbourhood development in Anmore South - while keeping existing Anmore rural.
- **A Made-in-Anmore Future** | Begins with inviting the community to participate in a Neighbourhood Planning process to unlock the potential of the Special Study Area to benefit Anmore.
- **One Step at a Time** | The OCP Amendment does not confer development rights - it establishes a new community vision for Anmore South, and serves as a statement of intent and guide to future rezoning and development approvals.
- **Community Engagement** | Each step in the development approval process includes the requirement for Public Engagement.

Seeking sustainability

Working with nature

- Conserve Ecological Integrity
- Create Networks of Parks + Natural Space
- Celebrate our Natural Heritage

Context | The Unique Opportunity of Anmore South

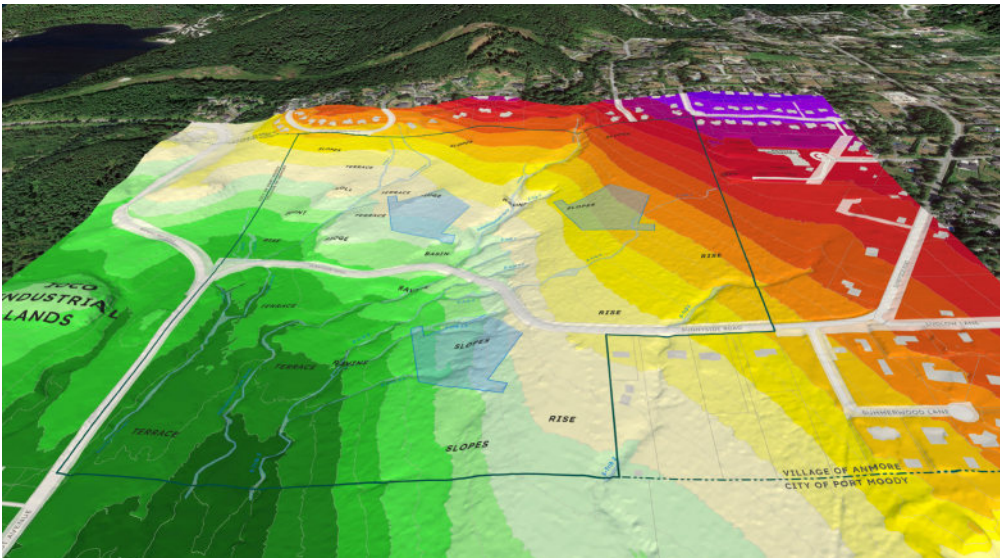

- **Position** | Lower southwest corner of Village, below surrounding neighbours.
- **Proximity** | 600m from Burrard Inlet waterfront and adjacent to Port Moody Ioco industrial lands.
- **Scale** | Significant land area of 151 acres.
- **Civic** | Adjacent to Anmore Elementary School, municipal parks, and near the Village Hub.
- **Forest** | 2nd + 3rd growth forest following historic clearcut logging. Provides significant opportunity for forest trails + nature preservation.
- **Buffer** | Existing forest allows for retention of a buffer along streets and around existing neighbourhoods.
- **Ownership** | Consolidated ownership allows for comprehensive planning + implementation.

Analysis | Understanding the Land

- The OCP Amendment Application Planning is based on robust **technical analysis**.
- Topographic, environmental, geotechnical + archaeological assessment shows where development should be avoided.
- Further detailed analysis to be undertaken as part of the Neighbourhood Planning Process.

Green network | Protecting What's Important

- **Protects 50% of land** as a publicly dedicated Green Network.
- Green Network includes publicly-dedicated **Parks, Natural Areas + Greenways**.
- **Forest Buffers** along streets + existing neighbourhoods.
- >9 acres of Neighbourhood Park for **community recreation and gathering**.
- **Trail network** connecting to existing pathways + neighbourhood destinations.
- **Environmental enhancement** + compensation including improvement of salmon habitat.

Servicing + transportation | Making it Work

- Water, Sanitary + Drainage infrastructure servicing concepts have been prepared by professional engineers, and will be further detailed through neighbourhood planning.

Water | Safe Municipal Network

The water system is expected to connect to regional water distribution at First Avenue, providing water across the site's 5 pressure zones.

Sanitary | Clean Wastewater System

The sanitary sewer connects at First Avenue, allowing the sanitary servicing to be contained to Anmore South to protect existing rural character.

Street Network | Livable Streets + Trails

Detailed Traffic Analysis + Transportation Demand Management will be prepared through the neighbourhood planning process.

Land use | Housing Diversity + Community Heart

- **Diversity of Housing** from duplex to mid-rise apartments, offering a Home for Everyone.
- Mixed-Use Village Centre with **shops + services** providing **local employment**.
- **Phased build-out** over +25 years.
- **Neighbourhood Planning** will refine Land Uses with accompanying policies to ensure delivery of community amenities + responsible development.
